

# OPPORTUNITIES FOR US EXPORTERS IN ADVANCED SECURITY & DUAL-USE TECH

## JAPAN DEFENCE MARKET WEBINAR

### ARE YOU READY TO SUCCEED IN ONE OF ASIA'S MOST STRATEGIC DEFENCE MARKETS?

Japan is undergoing significant transformations within its defence and security landscape, driven by rising geopolitical tensions and a strong commitment to strengthening national resilience. With defence spending rising and new policies encouraging international collaboration, there are growing opportunities for US companies across a range of advanced technologies.

Key focus areas will include unmanned and autonomous systems, cybersecurity, C4ISR and advanced communications, and integrated air and missile defence.

You will learn:

- How to navigate a complex and high potential market
- Where to position US capabilities to best fit evolving defence priorities
- Where the best opportunities lie
- Partnership models, regulatory considerations & procurement landscape

**Thursday 21 May**  
**17:00 – 18:00 PDT**  
**20:00 – 21:00 EDT**
